

Kiyokazu Nakajima, MD, PhD, FACS
Short CV, as of Apr 2020

Kiyokazu Nakajima, MD, PhD, FACS

Dr. Kiyokazu Nakajima

Professor

Department of Next Generation Endoscopic Intervention
Osaka University Graduate School of Medicine
Department of Surgery
Osaka University Graduate School of Medicine

Dr. Nakajima received his MD in 1992, and PhD degrees in 1999 from Osaka University and then went to Weill Medical College of Cornell University for 2 years, where he was a postdoctoral associate in surgery.

Dr. Nakajima is one of the nation's leading experts in minimally invasive surgery. In 2008, he was recognized not only as performing Japan's first human Natural Orifice Translumenal Endoscopic Surgery (NOTES) series for therapeutic purpose, but also world's first partial gastrectomy using NOTES technique. He has published more than 15 textbook chapters, 32 top-author original articles in peer-reviewed journals and edited/co-edited 7 books. He has been invited to serve as a faculty member for laparoscopic surgery courses at national and international meetings.

Reflecting his strong interest and expertise on innovation of surgical techniques and development of new laparoscopic/endoscopic devices, Dr. Nakajima has established an academia-industry consortium called "ENGINE" (Endeavor for Next Generation of Interventional Endoscopy) and has served as PI since 2009. He has gained over 7 million USD research grants from Japanese government in the last 10 years. He has held 115 patents and 18 commercialized items.

He has received several major awards from Ministries. He also has been awarded as "Ohgami Memorial Award" from Japan Society for Endoscopic Surgeons (JSES) 2018. Currently, he is the only Japanese member of Technology Committee of The European Association of Endoscopic Surgery (EAES).
