特別講演

Dr. Ping-Hong Zhou

Zhongshan Hospital
Fudan University, China

“Endoscopic minimally invasive resection from EFTR to real pure NOTES”

Professor Zhou is one of leading endoscopic surgeons. His main work focuses on endoscopic diagnosis and treatment of gastrointestinal tumors. He is one of ESD pioneers in China and has gained much experience in EMR, EPMR and ESD. Recently he is very interested in endoscopic resection of SMT and tunnel endoscopic surgery, such as submucosal tunnel endoscopic resection (STER), peroral endoscopic myotomy (POEM) of esophageal achalasia.

He has edited 3 books on ESD and endoscopic resection and published over 100 papers in Chinese journals and 50 papers in international peer-reviewed journals like Endoscopy, Gastrointestinal Endoscopy and Surgical Endoscopy. Dr. Zhou is also actively hosting ESD training courses in China, giving presentations and live demonstration in more than 20 different countries.
